### Variable Return Investments - as of: 5/31/2024

Below focuses on the performance of investment options that do not have a fixed or stated rate of return. It shows how these options have performed over time and allows you to compare them with an appropriate benchmark for the same time periods. Past performance does not guarantee how the investment option will perform in the future. Your investment in these options could lose money. Information about an option's principal risks is available on the Fund's Web site.
